A COMPREHENSIVE GUIDE TO

HARAR

and Surroundings

Visiting the historic city of Harar – Unesco World Heritage Site – allows one to experience an entire civilisation in a very small space, fully enclosed by an ancient wall.

Harar is the outcome of a brilliant and passionate collective engineering work, a long-term successful process whose key secret lies in the realisation of a common good through the capacity to creatively respond to external challenges and changes.

Walking through the enchanting streets of Harar one can see the beauty of the city and can also retrace the visible and invisible layout of this exceptional social, religious and cultural world.
